

About the Company

BrowserStack is the world's leading software testing platform, enabling over two million tests daily across 15 global data centers. It provides cloud-based access to over 5 billion users, ensuring seamless website and mobile application performance across different devices, browsers, and operating systems. Trusted by 50,000+ customers, including global enterprises like Tesco, Shell, NVIDIA, and Discovery. Founded in 2011 by Ritesh Arora and Nakul Aggarwal, with a vision to create the testing infrastructure of the internet. Secured \$200 million in Series B funding, reaching a \$4 billion valuation in 2021.
